HOBBIES

Competitive Programming: Regularly participating in online coding competitions to sharpen programming skills and tackle challenging problems.

Emerging Technologies: Exploring new and innovative technologies like blockchain, IoT, and AI through online courses, podcasts, and personal projects.

Tech Meetups and Conferences: Attending technology-focused events and conferences to stay up-to-date on industry trends, network with professionals, and gain insights from expert speakers.

PROFILE

As an enthusiastic Master of Computer Applications (MCA) graduate, I am excited to begin my career by pursuing an internship within your respected organization. Armed with a solid academic foundation, practical experience from diverse university projects, and a genuine interest in the dynamic field of technology, I am eager to contribute my passion, commitment, and problem-solving abilities to support your company's technological objectives.

RELEVANT COURSEWORK AND PROJECTS:

Software Engineering and Project Management

Acquired expertise in software development methodologies, project planning, and resource management to ensure efficient and timely project delivery.

Full-stack Web Development

Worked with a team to design, develop, and deploy a responsive web application, showcasing creativity and technical expertise in both front-end and back-end technologies.

Cloud Computing and Virtualization

Gained proficiency in cloud service models, virtualization techniques, and best practices for designing and deploying scalable, secure applications in the cloud.

EDUCATION

Master of Computer Applications (MCA), Premier Institute of Technology

2020 — 2023

Graduated with a strong academic record, engaging in various IT-related extracurricular activities to further develop technical skills.
